

JUNIOR .NET DEVELOPER

COLDHARBOUR
S Y S T E M S

Job Role

Founded in 1986, Coldharbour Systems Ltd are the market leading suppliers of specialist software to the care industry. We are currently looking to expand our .Net development team during a period of continued growth and success. Within this role you would be responsible for a wide range of development activities using the latest versions of .Net Framework, C#, ASP.Net MVC and Windows Presentation Foundation.

Among the daily tasks and duties expected of the successful candidate will be constructing new applications and amending existing applications, working closely with the test team and assisting with the support of live applications. You will therefore be exposed to the full software development lifecycle on an on-going basis.

Skills & Experience

The role is ideally suited to a recent graduate or someone with commensurate industry experience. The key attributes for the successful candidate will be a bright, inquiring mind with an aptitude for quickly and effectively solving problems. Above all you must have a good attitude and strong communication skills in order to fit into a tightly knit and busy team.

In addition to the above, experience with any of the following would be beneficial:

- .Net Framework 4.0
- HTML, JavaScript, CSS & JQuery
- ASP.Net and/or ASP.Net MVC
- WPF
- SQL Server or equivalent database skills

The Company's philosophy on personal development and reward will suit a creative person who can clearly demonstrate initiative and work effectively within a small, highly skilled team, showing aptitude and determination to succeed in a fast moving and challenging industry.

Remuneration for the position is commensurate with experience and, on successful completion of a probationary period, will include private medical insurance, company contributory pension scheme and life insurance.

Coldharbour Systems Limited is an Equal Opportunities employer.

Please reply in writing or email your application, with your CV and salary expectations, to Julie Gay (jobs@coldharbour-systems.co.uk).

No agencies please.
