

# TRAINER/IMPLEMENTER ACCOUNTING AND BUSINESS INTELLIGENCE SYSTEMS SPECIALIST

Are you looking to succeed in a fast-moving and challenging industry?

Coldharbour Systems Ltd is the market leading suppliers of specialist software to the care industry. Based in Wraxall, near Bristol, we are currently looking to expand our team of trainers/implementers specialising in our accounting and BI systems.

This role would specifically suit a qualified graduate with 1-4 years experience, looking for an exciting and challenging new career direction.

## Essential skills

- Training and implementation experience
  - Excellent verbal and written communication
- Strong accounting knowledge
  - Experience of using/implementing computerised accounting/payroll packages
  - A good working knowledge of accounting practices
- Understanding of the structure of financial and management information
  - Experience of implementing business intelligence systems
- Demonstrable knowledge/understanding of IT
  - Including Microsoft Office

## The following skills would be advantageous

- Partial/fully qualified accountant
- Basic understanding of SQL
- Project management (e.g. PRINCE2)
- Knowledge of the care industry

## Plus you will need to be

- Friendly, sociable and outgoing
- A positive and enthusiastic problem solver
- A self-motivated and flexible team member
- Able to work under pressure and quick to learn

*Note: The role of trainer/implementer will involve travelling extensively throughout the UK and may involve staying away from home. You will need to hold a full driving licence.*

Please apply via email or post, including salary expectation to:  
(All applicants must be UK based and possess full work permit, if needed)
